

WINK'S WORDS

NEWS & VIEWS ABOUT NUTS & BOLTS

Your fastener order is in the bag... if that's the way you want it!

In the polybag, that is.

In case you weren't aware of it, **WINK** can supply you with fasteners in user-friendly polybags. Our automated bagging equipment has the capability to meet your needs, whether it be a small lot of 100 bags or quantities up to 50,000. And we can handle a variety of combinations. For example, you can get six screws in a bag to go along with a push plate; or 20 bolts, 20 nuts and 20 washers to go along with a swim ladder. We can also assemble nuts and washers on bolts for your convenience. Whether it is special boxing, bagging or assembling we can probably do it for you.

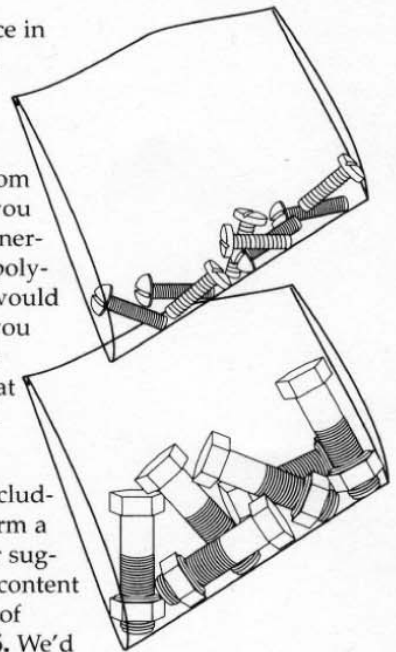

What's more, **WINK's** polybagging service is efficient and cost-effective. You'll even find it surprisingly competitive with in-house bagging operations.

So, if you have a need for a reliable, economical fastener polybagging source, we'd like to offer this service to you. For

your convenience in inquiring about **WINK** polybagging, we have provided a fax form at the bottom of this page so you can give us a general idea of your polybag usage. We would appreciate it if you would fill it out and fax it to us at **800-TRY-WINK (879-9465)**.

We have also included on the fax form a request for your suggestions on the content of future issues of **WINK'S WORDS**. We'd like to hear from you on this, as well.

Thank you for your cooperation.

Your Name: _____ Your Company: _____

- ▶ Do you currently have parts polybagged? Yes No
